

Owen Newsome

Full-stack Developer

I'm a Full-Stack Developer with a background in education and a strong drive to build tools that solve real-world problems. I joined Le Wagon's Web Development bootcamp to channel my passion for helping people into impactful technology. While there, I built a pet care tracking app using Ruby on Rails and JavaScript, reflecting my commitment to user-centered design and clean, functional code. Now, I'm excited to bring that same mindset and collaborative energy to a dynamic development team.

Skills

HTML | CSS | JavaScript
Ruby | Ruby on Rails | Heroku
GitHub | Git | Heroku
UI/UX Design

Languages

English - Fluent
Japanese - Intermediate

Hobbies

Big fan of playing soccer, and fingers crossed for Chelsea next season!

Full-stack Projects

Pawkit App 2025

- Built Pawkit, a pet care tracker using Ruby on Rails, JavaScript (ES6), and PostgreSQL. Led development, added real-time chat with Turbo Stream and WebSocket, and integrated Google Maps for location-based search.

Furniture Rental App (Airbnb Copy) 2025

- Built a marketplace app, to buy and sell furniture using Ruby on Rails, JavaScript (ES6), PostgreSQL, and Bootstrap, with user authentication and responsive task scheduling features.

Education

Le Wagon Bootcamp 4/7/2025 - 6/6/2025

- Le Wagon Bootcamp (Full-time, 9 weeks)
- Learned and used HTML, CSS, Bootstrap, JavaScript, SQL, Git, GitHub, Heroku and Ruby on Rails

Universities of the West Indies 4/7/2025 - 6/6/2025

- Studied Education at the University of the West Indies, with a major in History and Social Studies.

Work Experience

University Teacher 2024 - 2025

Language Teacher - Toin University

- Led university English electives focused on practical skills, student engagement, and clear expression.

High School Teacher 2024 - 2025

Language Teacher - Chigusa H.S

- Taught English at a Japanese high school, designing original, communication-focused lessons that emphasized practical language use and student engagement.
